

Project Design Phase-I
Proposed Solution Template

Date	24 September 2022
Team ID	PNT2022TMID00130
Project Name	Personal Assistance for seniors who are self-reliant – Medicine Reminder.
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Personal Assistance for seniors who are self-reliant. To find a solution for the challenges faced by elderly people.
2.	Idea / Solution description	Medicine Reminders can remind seniors to take medicines when the time comes. Since many elders forget to take medicines—or wind up taking double or triple doses—having a facility to remind them and monitor medications can prove invaluable
3.	Novelty / Uniqueness	Sometimes elderly people forget to take their medicine at the correct time. They also forget which medicine He / She should take at that particular time. And it is difficult for doctors/caretakers to monitor the patients around the clock. So, Medicine Reminders proves to be the best fit.
4.	Social Impact / Customer Satisfaction	Medicine Reminders provides timely help and improves the health condition of seniors and serves as an all time personal assistance.
5.	Business Model (Revenue Model)	Since the population of seniors who require help and are dependent on others are higher, the usage of the application is also higher.
6.	Scalability of the Solution	The idea can be implemented easily and efficiently and dependency of seniors decreases.
